Ok so...

1. Bots or dev friends gave this game recommendation.
2. This game using tons of no copyright sounds and looks terrible.
3. All you have to do is guessing where you have to go or walk through maze.
4. AI is terrible. If you close that "enemy" in house you will be safe.
5. Bricks are useless... I mean you can throw at your "SCARY ENEMY" but it only stops him for few seconds. Only stops because if you walk next to him, he still be able to catch you.

JUST DON'T BUY THIS, waste of time and money.. I refuse to play a game with such nausea-inducing head bobbing. It's truly terrible. I can't even begin to play like that. Just like the other game called Duder, also made by the same developer.
